

FEILNER IT
20 Years of Open Services

Markus Feilner

Wöhrdstraße 10, D-93059 Regensburg, Germany, +49 170 302 70 92

mfeilner@feilner-it.net, www.feilner-it.net, @mfeilner

About me

Linux and open source expert since 1994, senior journalist, IT manager and trainer, management consultant and coach. Owner and consultant at Feilner IT, founded in January 2000

Loves professional research and investigation, loves to write, explain, organize, structure, make complex things understandable – in words, images and presentations

Expert for human factor in IT (OSI Layers 8 to 10), digital sovereignty & sustainability

User of modern documentation, project management, open source and common sense

I love to motivate, inspire and lead great humans from all around the globe, and to find, recruit, and lead teams of outstanding IT experts. I enjoy networking with hackers, nerds, politicians, industry leaders and IT users in a diverse culture and company. Writing, traveling, being creative and sparking creativity, both in word(s), ideas and measurable results is what makes me happy. I want to contribute to make this world a better place for everyone. I am fluent in English and German and comfortable when speaking and reading French and Italian.

Achievements

Author of three books (Security/OpenVPN, Mail/Groupware) and hundreds of articles in tech magazines and beyond

Former deputy editor-in-chief for the German “Linux-Magazin”, former deputy editor-in-chief at Heise iX, the leading German language magazine for IT professionals, 2014-2019 Team Lead Documentation at SUSE, responsible for budget, hiring and leading a global team of 16 documentation experts. Currently editor for technology and internet politics at Heinlein Support (mailbox.org).

Presentations, trainings, host of panels with industry leaders, politicians and tech experts, live and live stream. Many videos available online.

Founder and owner of Feilner-IT (January 2000), focused on self-developed concepts of Agile Recursive Onboarding and Documentation as paths to self-healing, resilient process and product documentation structures for enterprise processes and know-how management. Digital Sovereignty and Sustainability.
